

Biosafety Challenges in the Laboratory: An ASEAN Perspective

**Dr Mohammad
Yazid Abdad**

What does biosafety look like when resources are limited, infrastructure is ageing, and laboratory risks are constantly evolving? Join Dr Mohammad Yazid Abdad, an internationally experienced biosafety professional and WHO consultant, as he shares practical insights from the frontlines of laboratory biosafety across ASEAN.

This session will offer real-world strategies, lessons learned, and a regional perspective on building safer and more resilient laboratories.

Date: 30th September 2026 (Wed)

Time: 09:30 am – 10:30 am (SGT / GMT+8)

Registration is free.
